## About Hadhreen

“Hadhreen was founded in 2015 by a group of Sudanese youth driven by a shared vision of community resilience. It has since grown into a humanitarian and development organization serving vulnerable communities across Sudan. Registered with the Humanitarian Aid Commission (HAC) in Sudan, Hadhreen has expanded globally with a formal presence in the UK and the USA, advancing its mission to support those in need.”

### • Natural Water Coolers

“ Hadhreen installed **17 natural cooler units** in public schools and mosques, providing sustainable and hygienic drinking water without the need for power. The system is using heat exchange theory, which help reducing dependency on power and contributes to environmental sustainability, while supporting education and community resilience in a water-scarce region. The initiative improves public health, especially in mosques and crowded public schools, by ensuring access to clean water and reducing the risk of disease transmission through shared cups. ”

### • Solar-Powered Water Station – Al-Obeid

“ At Al-Obeid Secondary School for Girls in North Kordofan, Hadhreen established a **solar-powered water station** that supplies clean and reliable water to both students and the local community. ”

### **Strength:**

- Strong partnerships with WFP, UNDP, national NGOs, and local initiatives
- 20+ years accumulative experience in humanitarian support and high caliber volunteers
- High credibility built through a proven operational track record
- International presence in the UK and USA
- Active assessment and needs-based intervention

### **Weaknesses:**

- Operating across areas with multiple de facto controls
- Instability in conflict-affected zones
- Prioritizing urgent interventions amid shifting needs
- Limited field communication
- Constraints in timely documentations

## **Assessing our Strategic Position**

### **Opportunities:**

- Growing demand for reliable local partners amid limited implementation capacity
- Hadhreen's credibility positions it as a trusted actor in a crowded funding landscape
- Sudan remains a priority for multilateral and UN agencies

### **Threats:**

- Resource scarcity and rising inflation
- Communication disruptions and limited connectivity
- Security risks affecting operations and access
- Volatile economic environment
- Global crises diverting attention from Sudan's humanitarian needs

## Future Goals

- Global vs. local (Convince donors to shift for more localization)
- Strengthen local resilience and emergency response infrastructure
- Expand eco-friendly initiatives such as solar-powered water projects
- Increase international funding through our formal presence in UK and USA

“ This report is also dedicated to the memory of the brave volunteers who lost their lives while serving in the central kitchens, targeted by the treacherous hands of the Rapid Support Forces (RSF). May their souls rest in eternal peace. Their sacrifice will never be forgotten, and their legacy will continue to inspire our mission. Every meal served and every hand reached in support bears the mark of their courage and humanity. We will never forget them. ”

## Partnerships

“To all of our partners, we couldn't have achieved these results without your generous support. Thank you for standing with us and helping make a meaningful impact during these challenging times.”
