

Hadhreen Organization Profile

"Hadhreen" is a word used in Sudan and large parts of Arabic-speaking countries to express a desire to respond to the call of duty or to a request for help.

MEANING

Inspired by this phrase, which embodies both the speed of response and the high willingness to perform what we believe is a duty towards our people and towards their humanity, we have decided that our organization will bear this name.

The sacrifices of those who gave their lives for our current and future generations to enjoy a free and democratic homeland in which social justice prevails are always present in our minds. These sacrifices remain the first and most potent motivation for us to continue working, with our brothers and sisters in other organizations and initiatives, in the process of the reconstruction of Sudan.
